

# INFOSPHERE FOR ACADEMIA

Organized jointly by  
**KEYSOFT Solutions, Bangalore and  
University of Pune, Pune**  
Friday, 13<sup>th</sup> November, 09

## ABOUT INFOSPHERE

Infosphere is a Business Intelligence tool from the IBM Information Management stack. It comprises of both Data Warehousing and Analytics components, covering every aspect of Business Intelligence, from ETL to dimensional modeling. In short, it has all the tools to convert data into a strategic asset.

## ABOUT KEYSOFT

At **KEYSOFT**, we focus on **Data Warehousing** and **Business Intelligence**. We deliver consulting and training services on a range of Business Intelligence technologies including, IBM DB2, Cognos, Informatica, Business Objects, SQL Server 2005, Oracle, Hyperion and Sybase IQ. We have implemented **Business Intelligence** Solutions across multiple industry verticals around the world, including pharmaceutical, consumer banking, academia, cable TV, government, retail Banking, IT distribution and customer services.

## ABOUT UNIVERSITY of PUNE

The University of Pune (formerly the **University of Poona**) was established under the Poona University Act, passed by the Bombay Legislature on 10th February, 1948. The University has since become one of the premier centers for research and teaching in the country. The university is home to 47 academic departments which provide a wide array of academic programs. 70 Research institutions have been recognized by the University for research. These include institutions of national importance like the National Chemical Laboratory (NCL), MACS, CWPRS, NIV, Gokhale Institute of Politics and Economics, Deccan College among others. The University has made a significant impact in various areas of research and teaching, and continues to strive for excellence.

## ABOUT THE SEMINAR

There is a huge demand for professionals skilled in Business Intelligence in the market today. But unfortunately very few skilled BI consultants are available. Lack of awareness and training at the graduate, undergraduate level about the career prospects in this industry is one of the major reasons for this dearth. For this purpose, KEYSOFT has been continuously striving to educate people on this technology.

In this endeavor we are organizing a seminar "Infosphere for Academia" at **University of Pune, Pune on 13<sup>th</sup> Nov, 09** for academicians keen to explore this technology.

## SEMINAR AGENDA
